1999-2000 Steelhead Harvest Summary

Run Corrected

March 2002

Corrected to actual run timing 6-25-03

Sport Angler Steelhead Harvest (1 May, 1999 to 30 April, 2000) Run Corrected

Due to a 2000 administrative change in Catch Record Card (CRC) reporting, the CRC year has shifted from 1 May through 30 April (prior to 2000) to 1 April through 31 March (for 2001 and on). In order to maintain winter run (1 November through 30 April) integrity for management issues, it is necessary to use the appropriate April data in this run corrected sport harvest summary report.

* Boldt case area river/stream system (Western Washington only).

¹ The majority of the Columbia River System steelhead are summer-runs.

² Fish caught in this section of the Cowlitz River System are considered resident trout.

³ Winter steelhead catches are from angler surveys conducted by the Quinault Indian Nation.
